## **Assumptions Used in Arriving at Fiscal Estimate**

2003 SB 406 requires a private school participating in the Milwaukee Parental Choice Program (MPCP) annually to conduct a criminal background check on each new employee. It also requires the private school to conduct a background check of all existing employees within 120 days after the bill's effective date. With certain exceptions, the bill prohibits a private school that is participating in the MPCP from employing a person who has been convicted of any of the felonies specified in the bill for six years following the conviction. The bill also permits the private school to refuse to employ, or to terminate the employment of, any person convicted of any felony within the previous six years. The bill requires a private school to submit to the Department of Public Instruction (DPI), before the school begins participating in the MPCP, a copy of the school's certificate of occupancy issued by the city of Milwaukee, evidence of financial viability, and proof that the administrator of the school participated in a fiscal management training program approved by DPI. Annually, a private school participating in the MPCP must submit to DPI evidence of sound fiscal practices. The bill authorizes DPI to issue an order banning a private school from participating in the MPCP in the succeeding school year if DPI determines that the private school misrepresented information provided to DPI, failed to provide information to DPI by the date or within the period required, failed to refund overpayments to the state by the date required, or failed to meet at least one of the currently required academic or other standards by the required date. The bill authorizes DPI to issue an order immediately terminating a private school's participation in the MPCP if DPI determines that conditions at the private school present an imminent danger to the health or safety of pupils. SB 406 authorizes DPI to withhold payment from a private school participating in the MPCP if the private school violates any law or administrative rule governing the MPCP.

In order to fully review MPCP school compliance and to implement the functions assigned to the department by the bill, one additional full time equivalent school finance auditor would need to be authorized and hired. The cost of doing so would be \$100,900 GPR annually (\$71,800 annual salary plus fringe and supplies and services.)

The local-related requirements imposed by the bill are placed on private schools. There is no additional cost for local governments.

**Long-Range Fiscal Implications**
